Packages registry for wyg

📦 Publish Your Own Packages

- Create a git repo on Github/Gitlab/Bitbucket
- Commit your code and make sure `序.wy` (as entry) in the root.
- Clone this repo and modify the `registry.yml` and add your package info. The details is included in the file as comments.
- Create a PR of your changes.
- Once the PR got merged, your package will publish automatically!

You can also check out `子曰<antfu/ziyue-wy>` as an example.
